

METHODOLOGY OBJECTIVES AND INDICATORS
EMOTIONAL INTELLIGENCE

Following inductive method based on indicators that can be measurable and verifiable.

OBJECTIVES	INDICATORS	ACHIEVEMENT OF OBJECTIVE
1-REGARDING ATTITUDES		
1.1 Increasing self-confidence about own abilities and possibilities (Process)	1.1 a- Expressing joy after successful actions. b-Not insisting in doing exercises without being prepared	On scale of 0 to 5, the score is 4 or more. *
1.2 Developing having faith in others (Process)	1.2 a- Asking if something is not understood. b-Accepting advice and suggestions	
2 – REGARDING BEHAVIORS		
2.1 Reducing antisocial reactions (Outcome)	2.1 a-Aggressive reactions when something goes wrong (hitting, insulting...) b-Aggressive reaction in front of criticism (hitting, insulting...) Impulsive behaviors	On scale of 0 to 5, the score is 1 or less. *
2.2 Reducing auto-exclusion behaviors (Outcome)	2.2 Refusal to participate/do something	
2.3 Being able to obey rules (Outcome)	2.3 Doing as one pleases	
3- REGARDING RELATIONSHIPS		
3.1 Integration in the group (Outcome)	3.1 a-Regular attendance b-Taking part in the castle c-playing their role c-Blogging positively	On scale of 0 to 5, the score is 4 or more. *
3.2 Developing solidarity (Process)	3.2 a- Helping others b- Sharing things	
4- REGARDING SKILLS		
4-1 Working in team (Outcome)	4-1 a-Building the castle b-Playing instruments	On scale of 0 to 5, the score is 4 or more. *
4-2 Adaptability without anxiety (Process)	4-2 Good interactions: a-greeting b-sharing c- helping d- accepting help e- communicating	

<p>* Scale of measure: 1 = never, 2 = rarely, 3 = sometimes, 4 = often and 5 = always Tool: a- Observational behavior register</p>		
<p>5- REGARDING PREVENTION</p>		
<p>Reducing future possibilities of antisocial and conflictive behaviors (impact)</p>	<p>Normal behavior in daily life: 5.1-Positive interactions: greeting, sharing, helping.... 5.2-Negative interactions: .nsulting, fighting, hitting....</p>	<p>a-On scale of 0 to 5, the score is 4 or more.* b-On scale of 0 to 5, the score is 1 or less*</p>
<p>* Scale of measure: 1 = never, 2 = rarely, 3 = sometimes, 4 = often and 5 = always Tool: a- Observational behavior register.</p>
